Subject: Re Proposed scheme to increase services through Irish language.

Dear Sirs,

I wish to make a submission in relation to the proposed scheme to further increase the availability of services through the Irish Language.

I submit that the Property Registration Authority should abandon the provision of services through the Irish Language as it is a gross and needless waste of public time and money. I suggest that the government and the public sector should stop flogging the dead corpse of the Irish language and I submit that the available resources which are at present squandered on this foolishness should be diverted to better use.
